

PUMP COVER PLATE

Bath Accessories

OUTDOOR SPA PUMP COVER PLATE

- The cover plate is designed to fit around the unsightly holes made in an outside wall, when the spa pump is fitted with the suction and return pipe through the wall.
- The cover plate is a split half cover plate designed to fit around the pipes and opening hole.
- The cover plate can be fitted to the wall by either liquid nails or by masonry anchor.
- There are no drill holes in the plate to allow the installer to position the holes to suit the wall.
- The cover plate can be painted to match the house
