

# Novara Under-Mount Oval Basin

Product Code: **NOBUCO**

The Novara oval under mount basin is designed to sit under a solid surface bench top to give a seamless, integrated look. As it has no taphole the tap ware needs to be mounted on the bench or wall. An overflow hole is built into the front of the basin to take any excess water back to the waste.

- AS/NZ Standard AS1172.4.2019
- Under-mount basin
- Overflow
